RESETTING
THE MAGIC POWER OF A CONSCIOUS MIND

LOVE
OFFERING

Since the beginning of human kind native cultures have known about their oneness with God. The use of this knowledge culminated in deep spiritual rituals that strengthen the connection with their divine origin to create a stress free life.

Through playful exercise we can initiate a significant change in destructive mind programs and body patterns to experience a tension free physical body and a peace of mind state that goes far beyond your past experiences.

Andreas will take you on a journey into the magic power of old traditional rituals based on the wisdom of the elders. Using today's scientific knowledge of mental, consciousness training, quantum physics, heart, brain and neuroscience, he will explain and show just how effective these rituals still are.

The introduction is followed by a short break, followed by a Resetting coaching session, which will show participants how to lay aside their rational and analytic thinking and explore playful possibilities through first hand experiences.

In a Resetting coaching session, Andreas works simultaneously with everyone in the auditorium. Participants will feel the expansion and liberation of free energy to strengthen the self-healing processes in their bodies, souls and minds.
